

## **ONLINE PERFORMANCE REVIEWS**

***COST: \$65 per Registrant***

Performance Reviews are essential in not only keeping the “good” employees you have as well as being a viable tool to develop and increase performance. However, continuing to manually conduct performance reviews and trying to keep up with getting them done along with records retention can be a time consuming nightmare.

With online performance review software, it is easy to place your performance data into the online software. Thus enabling:

- Your organization to be able to construct customized performance reviews for your jobs and job categories
- Conduct performance reviews online
- Easily, via the online process, keep up with who has been rated and who has not
- Accomplish online approvals at various levels
- Allow employees to self appraise before their actual appraisal
- Integrate your performance reviews into an online performance management system

In this webinar we will be demonstrating the online performance review system that CRI provides employers across America.

We invite you to send us questions that you may have and would like for us to address either during the webinar or after. Please email your questions to Milt Cotter at [mcotter@criw.com](mailto:mcotter@criw.com)
